

Monday 16th March 2020

Dear Parent/Carer,

Re: Coronavirus

I wanted to keep you updated with the UTC response to the ongoing coronavirus situation.

The Prime Minister has just given his update this afternoon 16/03/20 and the message for schools is that where possible should operate as business as usual.

At Crewe Engineering and Design UTC we have been insistent and persistent in our approach to hand sanitisation and cleanliness within the building to ensure prevention of the virus.

We understand that this is a very worrying and confusing time for everyone, however, school continues to be open and we will continue to provide education to your child until such time that the government makes any adjustments to their message.

When, and if, the government do decide to close schools there will be a full information pack that both you and your child will receive to ensure that learning continues at home.

Please continue to follow the government advice and if your child has a fever or a continuous cough then they should be self-isolated. You should notify school at the earliest possible time and work will be sent to the children to ensure as little disruption to their learning as possible.

The health of your child and my staff is my priority and I will keep you updated with any developments as the weeks move on.

Yours Sincerely,

Mr L McDaid
Principal
